

## Or Else

Cady Groves

when i walked out on the first day  
all that i could say was hello hello  
and when i think about the last thing i thought i wanted  
a hey hey hello, well hello

cause we wont go a single place  
if i didnt want it to  
but i want this

look up cause  
im falling on you fast now  
and im not gonna stop myself  
look up cause  
nothings gonna be held back now  
or else, or else

my god ive never seen this coming  
i want your lights turned away  
down low down low  
where are we going when youre running  
pushing me a hey, hey down low and below

cause we wont go a single place  
honey you never wanted this  
but i want you

look up cause  
im falling on you fast now  
and im not gonna stop myself  
look up cause  
nothings gonna be held back now  
or else, or else  
or else

youre tearing down your world  
but honey youre on top of it to everyone  
and ill be at home  
when your waves come crashing down

look up cause  
im falling on you fast now  
and im not gonna stop myself  
look up cause  
nothings gonna be held back now  
or else, or else

a hey hey  
or else, or else
