

Hey Day

Caesar

Hey, you know, this shiver I've got
It's part of a legacy
For all the times that I know
have never be good to me
But when you go and try to sort it out,
I'm kind of worried where it leaves me

Hey, how long can this go on, I wanna be free again
For all the days that I've known will never return again
And when you go and try to sort it out,
I'm kind of worried whether I'll be
Part of the world too

Hey, you know, this shiver I've got
It's part of a legacy
For all the times that I've known
have never be good to me
But when you go and try to sort it out,
I'm kind of worried whether I'll be
part of the world too
