```
Hey, mister Moon shines too, wanna figure out what I'm gonna do First I'm gonna watch the stars, they are all around me Tell me where you are
```

Hey, this is what I'll do, draw you in the sky, turning into you I'm gonna go the way, I saw the other day, I'm sure that I had been there It wasn't all that great

(Maybe) I don't wanna go, (maybe) I don't wanna know (maybe) You made me realise (maybe) I'm just a star in your eyes

(maybe) I don't wanna go, (maybe) I don't wanna know
(maybe) You made me realise (maybe) I'm just a star in your eye

Hey, mister Moon shines too,
I don't really know what I'm gonna do
I'm gonna go the way, I saw the other day, I'm sure that I had
been there
It wasn't all that great

(Maybe) I don't wanna go, (maybe) I don't wanna know (maybe) You made me realise (maybe) I'm just a star in your eyes

(maybe) I don't wanna go, (maybe) I don't wanna know
(maybe) You made me realise (maybe) I'm just a star in your eye
