

Staying in bed seven days a week
Watching TV every night
See the guy, I think is pretty rich
Hear how he stumbles on the words

And I don't really care about that
I don't give a shit at all
And I don't really care about that
I don't give a shit at all

Trying to figure out my favourite toons
Same thing happens every night
See a girl, I think is pretty cute
She gets anyone she wants

And I don't really care about that
I don't give a shit at all
And I don't really care about that
I don't give a shit at all

Staying in bed seven days a week
Watching TV every night
I see the guy, I think he's pretty rich
Hear how he stumbles on the words

And I don't really care about that
I don't give a shit at all
And I don't really care about that
I don't give a shit at all
