

Burn The City Down

Caesars

I saw you at the club tonight
Mixed up in some kind of fight
Chairs were flying all around
The kids fight to the modern sound

Let's burn the whole city down
Burn the whole place down
Burn it to the ground

I saw you standing on the corner
And I could see what you were thinking
I know you're freezing and it's dark
If you got the fuel I've got the spark

Let's burn the whole city down
Burn the whole place down
Burn it to the ground

So dance while you still have feet
And smile while you still have teeth
There's nothing happening anymore
There's not a single living soul

They've burned the whole city down
Burned the whole place down
Burned it to the ground

They've burned the whole city down
Burned the whole place down
Burned it to the ground
