Cheap Glue

Caesars

Cheap glue I'm telling you, you can never make it stick
Cheap glue I'm telling you, that it going to make you sick
Cracked up in pieces and you still think it'll work this time
I'm telling you again, you'll have to try a different kind

You think that it's going to make you feel alright
You still think that it's going to make you feel alright
But cheap glue is just going to make you feel bad
I'm telling you that it's never make me feel glad

Cheap glue I'm warning you, you'd better open up your eyes
Cheap glue I'm telling you, that it just ain't worth the price
You try your best to patch it together but you know that it ain
't no use
'Cause cheap glue will never hold, it just makes you look a foo
