Down Down Down

Caesars

Is that you again?
Coming down again

Life been such a gas but fun gets never end
With all those fancy parties and your paper friends
You're going down again
Down down down again
Wash it down the drain

Slurring in my ears and it makes no sense my friend
Stumbling down the stairs and hit your head again
You're on your face again
You're down down down again
Wash it down the drain

Life been such a gas but fun gets never end
With all those fancy parties and your plastic friends
You're on your face again
Is that you again?
Coming down again

Life been such a gas but fun gets never end
With all those fancy parties and your plastic friends
You're going down again
