Easy Star

Caesars

I've been pacing the streets like a manic
Got mixed up in this wide spreading panic

Got the message that you sent
Don't know exactly what it meant
Easy star come back to find
A ten room flat within my mind

Standing in my doorway
Seasons keep slipping away
Counting the same old scars
Missing that easy star

Got the word you were leaving this planet
I'll have no more of your lip you can can it

Kingdom came and kingdom went
My youth and fortune's long gone spent
All the times I've gone too far
I caught you a twinkling easy star

Standing in my doorway
Seasons keep slipping away
Counting the same old scars
Missing that easy star
