

No Tomorrow

Caesars

Time to get the riot started, starry eyed and down for whatever
Take your aim and hit the target ready-steady-go for whenever

This monkey-nation is coming out the basement tonight
And when the whip cracks down you better start to move your feet
Because those sixteen tons fall heavy when they hit the street
When the walls come down we'll be shaking like there's no tomorrow

Five times five you'll never make it out alive
Nine times nine it's time to let your diamond shine

This zombie-nation is coming out the closet tonight
Yeah when the freaks come out they will take the lead and you will follow
And when the walls come down we'll be shaking like there's no tomorrow

Time to get the riot started, starry eyed and down for whatever
Take your aim and hit the target ready-steady-go for whenever

This monkey-nation is coming out the basement tonight
And when the whip cracks down you better start to move your feet
Cause those sixteen tons fall heavy when they hit the street
