

# Run No More

Caesars

I've been trying to catch the speed of life  
Been straighten out a crooked line  
And there's too many times I've run to hide  
Emotions working over time

I've been trying to grab the biggest rear  
To turn that dust right into gold  
I've been waiting for something to appear  
To make that something to unfold

And now I know I'll run run run no more  
Now I know I'll run no more  
And don't you know I'm done done done for sure  
Don't you know I'm done for sure

I've been trying to stop the fastest train  
To chase the darkest clouds away  
I've been trying to break the thickest chain  
To find the things that's right to say

I've been moving on down some icy streets  
To find a treasure that's been lost  
I've been trying to fight the tigers teeth  
The seven seas I had to cross

And now I know I'll run run run no more  
Now I know I'll run no more  
And don't you know I'm done done done for sure  
Don't you know I'm done for sure

The time is up to stop and turn turn turn  
the time is up to stop and turn  
The hard way I done I will learn  
The hard way I could really learn  
Really learn

Run run run no more  
Now I know I'll run no more  
Don't you know I'm done done done for sure  
Don't you know I'm done for sure

Now I know I'll run run run no more  
Now I know I'll run no more  
And don't you know I'm done done done for sure  
Don't you know I'm done for sure

The time is up to stop and turn turn turn  
the time is up to stop and turn  
The hard way I done I will learn  
The hard way I could really learn  
Really learn
