

She's Getting High

Caesars

I see you looking for shooting stars
standing in that sleazy bar
You tell me that you are getting old
you've searched but you've never found your goal

You tell me buddy about that sorrow
That you don't care about no tomorrow
You tell me all about all that trouble
You see light through an empty bottle

But I can't see that she's getting high
Not that want us so don't waste your time
I can't see that she's going wild
She get you going so you better try

You tell me about all your broken dreams
But things ain't ever just what they seem
You tell me you're gettin' tired of trying
Then you know that something inside you is dying

And I can't see that she's getting high
Not that want us so don't waste your time
I can't see that she's going wild
She get you going so you better try

I can't see that she's getting high
Not that want us so don't waste your time
I can't see that she's going wild
She get you going so you better try

You better try
Yeah you better try
'Cause she's getting high
She's getting high
Yeah she's getting high
