

# Burn It Blue

Caetano Veloso

Burn this house  
Burn it blue  
Heart running on empty  
So lost without you

But the night sky blooms with fire  
And the burning bed floats higher  
And she's free to fly...

Woman so weary  
Spread your unbroken wings  
Fly free as the swallow sings  
Come to the fireworks  
See the dark lady smile  
She burns...

And the night sky blooms with fire  
And the burning bed floats higher  
And she's free to fly...

Burn this night  
Black and blue  
So cold in the morning  
So cold without you

And the night sky blooms with fire  
And the burning bed floats higher  
And she's free to fly

Y la noche que se incendia,  
Y la cama que se eleva,  
A volar...

And of the dark days  
Painted in dark gray hues  
They fade with the dream of you  
Wrapped in red velvet  
Dancing the night away  
I burn...

Midnight blue  
Spread those wings  
Fly free with the swallows  
Fly one with the wind

Y ella es flama que se eleva,  
Y es un pájaro a volar  
Y es un pájaro a volar  
En la noche que se incendia,  
El infierno es este cielo  
Estrella de oscuridad

And the night sky blooms with fire  
And the burning bed floats higher  
And she's free to fly  
Just a spark in the sky  
Painting heaven and hell

Much brighter

Burn this house

Burn it blue

Heart running on empty

So lost without you
