

Attack + Release

Cafuné

Ever since I knew that it would be this way
The beating won't repeat an even score
Ripple tides whisper and shout away to me
Given, granted, now I've heard it all before

I'm out of sight, of peace of mind
Waves nocturnal, keep us floating 'neath the sky
To some respite, I'll testify
To my own place in doubting, whether I should try

Attack and release, a life isn't cheap
I wanna believe, I wanna set free
My own inner needs, for answers and keys
Attack and release, attack and release

Make it happen for yourself they say
Commit to even keel from this day forward
But cosmic patterns leave you spiraling
Break a cycle, birth another, and so on and on and on

I'm out of sight, of peace of mind
Waves nocturnal, keep us floating 'neath the sky
To some respite I'll testify
To my own place in doubting, whether I should try

Attack and release, a life isn't cheap
I wanna believe, I wanna set free
My own inner needs for answers and keys
Attack and release, attack and release

Attack and release, the blind again see
I wanna believe, I wanna be free
I feel myself freeze, cut off at the knees
Attack and release, attack and release

(My peace of mind...)
