

Empty Tricks

Cafuné

We came alive when it hit 65
But it turned out now
We could walk outside or stay alive

And they push us all aside
Try to run and hide
Behind guns and rocks
It don't stop
And I can't switch it off
I just sink and drop

They push us all aside
Try to run and hide
Behind guns and rocks
Shit don't stop
And I can't switch it off
I sink and drop

Shields and beating sticks
Bullshit empty tricks
I'm trying, we're trying
Been a long time struggle over this
And I'm crying, we're crying

Do you think someday
Could be better than now?
Do I think there's some way
We could be better now?

They push us all aside
Try to run and hide
Behind guns and rocks
Shit don't stop
And I can't switch it off
I sink and drop
Behind guns and rocks
Shit don't stop
And I can't switch it off
I sink and drop

Shields and beating sticks
Bullshit empty tricks
I'm trying
