

I'm not from where I was born bred
I've got nowhere to claim
Wish I'd caught every word you said
I'd still drift farther away

What's left when I fade away?
What's left of debts I couldn't pay?
Can't wish it gone
Sing the song, play along

Sun shine down like it was all okay
I let my emotions betray (me)
When I made it to the other side
I felt them trying to break (me)

What's left when I fade away?
What's left of debts I couldn't pay?
Can't wish it gone
Sing the song, play along

Wakin' up now, I'll see you later
I'd rather not lie still
Swear that I won't be in danger
If I do what I say I will
Wakin' up now, I'll see you later
I'd rather not lie still
Catch me dreamin' about a stranger
But I know, that you never will
Wakin' up now, I'll see you later
I'd rather not lie still
Swear that I won't leave in anger
If I do, would you love me still?

What's left when I fade away?
What's left of debts I couldn't pay?
Can't wish it gone
Sing the song, play along

Wakin' up now, I'll see you later
I'd rather not lie still
Swear that I won't leave in anger
If I do, would you love me still?
