

# Talk

Cafuné

Everyday, everyday, oh  
I see different things (I see different things fade away)  
Who knows what I say (for myself)  
Fade away everyday is a new chance to make something for myself  
(and everyday)  
For someone else, for someone else (for myself, for someone else)

I could be better after all this time  
I would let them know when disaster strikes  
I should let you know (let them know when disaster strikes)  
Even more, even more now  
Disaster strikes, I should let you know  
Even more, even more now (even more, now)

The flooded block, when I went to find someone to talk to  
I never thought, I'd lose sight and mess my mind up too

I should be better after all this time  
I would let them know when disaster strikes  
I should let you know even more, even more now  
Even more, even more, now

Even more, even more, now  
More now, more now  
Got stuck when I went to find  
Someone to talk to
