

Unchained Memory

Cafuné

Honestly, I think about
All of you, all of the time
And even though I go without
Having you here with that look in your eyes

No reason not to get out of bed
Kicking the tires on the rest of your life
Try to remember something you said
But my mind draws a blank
And then, I'm stuck in my head

I know I said nothing's promised
In this life, it falls upon us
Remember what you wanna see
You can leave the rest with me

Probably could've done without
Falling in love, then looking for you
I've gone around the roundabout
Missing my turn and fumbling through

No reason not to get out of bed
Kicking the tires on the rest of your life
Try to remember something you said
But my mind draws a blank
And then, I'm stuck in my head

I know I said nothing's promised
In this life, it falls upon us
Remember what you wanna see
You can leave the rest with me
I know I said nothing's promised
In this life, it falls upon us
Remember what you wanna see
You can leave the rest with me

Remember me, you shouldn't even bother
You probably just found yourself another
I hope you make some memories much shinier than these

So please, leave me be
Set me free, unchained memory
So please, leave me be
Set me free, unchained memory
