

Warm Body

Cafuné

I see her eyes on the train
She says "baby, there's no one to blame"
I got a pocket full of money, but it's driving me insane
Said "I just need some spare change"

Give me all your heartaches and I'll push them down the drain
There's no need for voices that aren't singing this refrain
Say all you want; just stay
Say all you want; just stay
Say all you want; just stay
Say all you want; just stay

Why you got it all? You just need a warm body
I'll be your install; I just need your warm body
Everybody knows; they just need to talk about it
Stay this way, hit replay
Just stay this way, hit replay
Just stay this way, hit replay
Just stay this way, hit replay
Just stay this way, hit replay

Give me all your heartaches and I'll push them down the drain
There's no need for voices that aren't singing this refrain
Say all you want; just stay (just stay)
Say all you want; just stay (just stay)
Say all you want; just stay (stay)
Say all you want; just stay

Why you got it all? You just need a warm body (warm body)
I'll be your install; I just need your warm body (warm body)
Everybody knows; they just need to talk about it
Stay this way, hit replay
Just stay this way, hit replay
Just stay this way, hit replay
