

## Dance Dance

Cage the Elephant

Down on the corner, polyphonic visions  
All the eyes were diamonds, technicolor wishes  
Five-star paranoia, high-five superstition  
Time to drug the needle, show 'em what they're missin'  
Chasin', we'll all fake it 'til we forget  
Turn the lights down and keep chasin'  
Are we vibin' or just lyin'? Yeah, we're vibin'

Dance, dance, dance  
Everybody dance, dance, dance

Ah-oh-oh-oh...

Down on the corner out on the city  
All the girls got money, all the boys look pretty  
The Velvetones are talkin', all the lips are kissin'  
Time to drug the needle, show 'em what they're missin'  
Chasin', we'll all fake it 'til we forget  
Turn the lights down and keep chasin'  
Are we vibin' or just lyin'? Yeah, we're vibin'

Ah-oh-oh-oh...

Dance, dance, dance  
Everybody dance, dance, dance  
Dance, dance, dance  
Everybody dance, dance, dance

Ah-oh-oh-oh...
