Monkey Disease

Cage the Elephant

```
I think I must've got that monkey disease
You got it
You got that bump on your lip
You got it, you got it
I think I must've got that monkey disease
You got it
You got that bump on your lip
You got that monkey disease
You keep that monkey funky
You got it, you got it

One time my uncle got that monkey disease
He got it
He got that bump on his lip
He got it, he got it
One time my uncle got that monkey disease
He got it
He got that bump on his lip
He got that monkey disease
He keeps that monkey funky
He got it, he got it

I think I must've got that monkey disease
You got it
You got that bump on your lip
You got it, you got it
I think I must've got that monkey disease
You got it
You got that bump on your lip
You got it
You got it
You got it
You got it
You got it
You got it
You got it
You got it
You got it
You got it
You got it
Auggh
```
