

## And So Kiddies

Cage

I drink a bucket of paint  
Watch my dick animate  
Puke my guts out  
Reveal a Poltergeist state  
Now I'm inside out no need to hide out  
Ain't made mistakes with paper since I sniffed the white out  
Ink them, rip is a genius a genius, my stitching life seamless  
Most like I don't exist to deem this  
I reach the heavens from my nights  
Plug mics in satellites, scream  
"Somebody get me off this fucking planet tonight!"  
When I wig out like salons, I'm calmed by sick flicks  
Got the staple gun for if your train of thought splits  
And it's so unchristian the way I'm blisterin'  
Tired rhyme styles from Detroit Michelin  
Who's that trim lady?  
Claimin some other nigga baby  
While her bitch royce roll for her bitch voice faggs the math after moist  
My hollywood writa'  
Thought b-boy stood for bitta'

Snatchin' gutty butts with slang from Clockwork  
Plus, my insects spectrs make me look like a gray  
Running through livestock cattle mutilate for BK  
Visit crop circles since clubs ain't fresh  
When I'm wildin' like Scott picking up agent LES  
The forceps in your chest try to pull out karma  
Who walked away with a smokin' tool and a rottweiler parma  
I made it out this life with warm breath  
Leave a two a still bar crawl back in for hill prawn  
Never call me son since my name Alex Starr  
I smack emcees with the Lincoln town car  
Bite your tongue off before you sound simila'  
And don't need no bitch box after Cage stick his Jim in her

Stay off the streets or get snuffed by worm kings  
They pull you underground a million feet and start circlin'  
Then blast!  
Cage peels scalps rip out pulp  
Recruiters on your block from the Agent Orange cult  
Hung the illest cats from the highest lamppost  
Gave the sickest dogs, cement Timbs to guard the coast  
I don't hear nothing polly in visions  
With shamans, electrocuted Carmen with a bead of almonds  
Bully gets gonest make shit kicks some of that addict  
I kill mad tricks and I don't know magic  
I start tactics with speed bumps  
And then snort it  
See four big trucks with change  
You join record it
