

Congrats

Cage

Can you count the fucks
That you don't give about what somebody thinks
Even if you try to skull
L's will wait like hockey sticks
The gift...
The gift... s knowing shit's a curse
Avert
Eat your life up and death is dessert
It's dessert

Thought it would be everything but it wasn't any of it
Just a bunch of lames in a pseudocoven
Proably try to kill me if I make it public
The rape... of the mind's... reluctant
Escape the Illuminati puppet
Cut your strings off and float from the stars

When will it ever end?
It won't
When will she ever leave?
She won't
You are the dumbest bitch
I've ever known
Congrats

When will it ever end?
It won't
When will she ever leave?
She won't
You are the dumbest bitch
I've ever known
Congrats

Did you get your piety confused with omnipotence?
For your tusk irrelevance
Your face cut off like elephants
I'm lit... like I'm in hell
Exhale like a crematorium
From the sanitorium
Until the words in my memorium

Bitch, suck it like it's made of jelly
You paid a milly
Gives no fucks
You can roll your sleeves down
I keep 'em up, I don't hide those cuts
Just wanted my pockets to be fatsos
And not have to acquiesce to assholes
And not have to wind up on desolate backroads
And be surrounded by dudes in black robes

Did you go quietly for opulence and decadence
Cause you went maniacally from malevolence, irreverence
Cause I thought defiantly as you walked along the precipice
Didn't give a fuck what you thought then
Why the fuck would ya give a fuck now?

When will it ever end?
It won't
When will she ever leave?
She won't
You are the dumbest bitch
I've ever known
Congrats

When will it ever end?

When will she ever leave?

You are the dumbest bitch
I've ever known
Congrats
