

## Apeshit (Interlude)

Cailin Russo

Workin' my fingernails down to the bone  
Since I've been here, you won't pick up your phone  
Been a long week, I'm not used to bein' alone  
And I've been combin' my hair out from hours till dawn  
Jewelry is faded from golden to bronze  
Guess I'll just never get used to bein' alone  
It feels like my days are gettin' longer, my body's growin' weak  
I'm about to go apeshit if you don't get back to me
