

Bad Things

Cailin Russo

I said, saddle up, cowboy, I'm waiting for you
Won't you give it up, don't be another one of 'em
Be one of us, come on, come on, come on
We've got bad things to do

Baby, take me, don't hesitate
With a girl like me you better activate
I'm a tidal wave coming for your grave
I wanna do bad things with you

Then your fireworks set me off
I'm like a time bomb in a storm
In your arms I'd start a war
We've both been here before
Matter of fact, I caught you looking back so let's go

I get what I want
I want what I see
I wanna do, do, do, do bad things with you

I mean, oh my God, come on, I know you feel it too
Like summer's on so hot, you put your record on
My panties drop and I don't wanna stop playing
It's on, babe, I know you're not shy

Baby, take me, don't hesitate
With a girl like me you better activate
I'm a tidal wave coming for your grave
I wanna do bad things with you

Then your fireworks set me off
I'm like a time bomb in a storm
In your arms I'd start a war
We've both been here before
Matter of fact, I caught you looking back so let's go

I get what I want
I want what I see
I wanna do, do, do, do bad things with you

Oh, baby, you're wild, such a wild child
Oh, baby, I'm waiting for you right now
Hand in hand, let's play with the fire
Oh, baby, I'm ready

I get what I want
I want what I see
I wanna do, do, do, do bad things with you
