

Fade

Cailin Russo

Shining down
You're smiling now
What's your secret?
4 years down
We're older now
Try to keep it

Bu bu bu boy
You know how to burn me
Straight to the core
Now now now now
Now I know you don't adorn me anymore

And it's all sex after cigarettes
Drinking late 'til I forget you
You, you
Our bed stained in your decadence
Mmm tell me how could I forget you
You, you

Now ow
I'm not guilty for my mistakes
I'm not proud of what we made
I just try to mean what I say
You just watch me fade away

Much more than
Just a man
And a woman
You taught me things
Made me believe
I can't fall down

And it's all sex after cigarettes
Drinking late 'til I forget you
You, you
Our bed stained in your decadence
Mmm tell me how could I forget you
You, you

Now ow
I'm not guilty for my mistakes
I'm not proud of what we made
I just try to mean what I say
You just watch me fade away

All my words are made of clouds
And there's a blue sky in my mouth
I'm not proud of what we made
You just watch me fade away

(All sex after cigarettes)
(Drinking late until I forget you)
You just watch me fade away
(Our bed stained in your decadence)
(Mmm tell me how could I forget you)
Watch me fade away

All my words are made of clouds
And there's a blue sky in my mouth
I'm not proud of what we made
You just watch me fade away
