

FATE'S INTERLUDE

Cailin Russo

You and me
South of France
Float around
Riverbends
Daydream
Eyes wide shut
Stay up don't give up
Pink face
Soft skin
Loose clothes
Warm winds
I watch you
You want me
I want you

Yea you
You're just what I'm missing
I do
Just want you around

You and me
White wine
Sun shower
Sunshine
Bite me
I bite back
You nasty
I like that
And baby you're worth every minute that I wanna spend on your heart
Put it on the card
Drive up the mountain I just wanna see you on top
I need you to know what you are
You
Don't come often
So stay in my open

You
You're just what I'm missing
I do
Just want you around

I wish you could see everything that I see
Nirvana in all our complexities
Float 'round my head
Like a Saturn ring
Stay right next to me
Like a memory
Like a memory
Never out of reach
Fool around with me
Far from everything
That's on everything
I got everything
Falling off the trees
When there's none of me
You'll remember me
Only one of me

And I know it's deep
Playing all my strings
Like a melody
Put your head on me
Make a bed of me
Make a better me
That's the energy
No apologies
Add up everything
Trigonometry
Give you all of me
Give you everything
Give you anything
Give you anything
