

# No Time

Cailin Russo

Old money, new lover  
Sweet honey, white lies  
And I can't sleep without the TV on loud  
So I guess I'll be out all night  
Baby, you  
Can lay and dream about me  
'Cause I move on quickly  
And you ain't comin' with me, no-oh

I've got no time to make up  
I've got no time to make up with you  
For every minute I burn  
With nothin' in return  
I've got no time to wake up with you  
I've got no time to shake up  
I've got no time to shake up with you  
Every word that you say  
You're rattlin' like a snake  
I've got no time to wake up with you

Silver tongue, cold teeth (da-da, da-da)  
Black lungs [?]  
I've been dancin' for hours

I can barely feel my feet  
So when you  
Touch yourself, think of me  
'Cause I move on quickly  
And you ain't with me, no

I've got no time to make up  
I've got no time to make up with you  
For every minute I burn  
With nothin' in return  
I've got no time to wake up with you  
I've got no time to shake up  
I've got no time to shake up with you  
Every word that you say  
You're rattlin' like a snake  
I've got no time to wake up with you

Vicious cycle, helicopter  
On a mission, nobody can stop [?]  
Round and round, and round, and round, and round

I've got no time to make up  
I've got no time to make up with you  
For every minute I burn  
With nothin' in return  
I've got no time to wake up with you  
You've got no time to shake up  
But not my time to do what you do  
Every word that you say  
You're rattlin' like a snake  
I've got no time to wake up with you  
Woo!

I've got no time to make up  
I've got no time to make up with you  
Every minute I burn  
With nothin' in return  
I've got no time to wake up with you, no
