

## Remember the Tragedy

Cain's Dynasty

I remember your voice whispering  
I'll never leave you alone  
I remember you used to say  
I'll always be with you

Then she left that tragic night  
Then she left forevermore

Every night I see you in my dreams  
I return to that tragic place  
But I can't save you my love  
I just promise to stay with you till I wake.

Now I see your face in my mind every day  
I'll always remember your last words  
Before you die

Each nightmare shows me the tragedy  
But before I wake I see your eyes again
