

## 10 And 2

CAIN

Got my hands at 10 and 2  
Going way beneath the limit  
I drove this car a million times  
But never with you in it  
And why they let a couple kids  
Bring one home, I'll never know  
Guess we're growing up together  
And learning as we go

Something tells me  
Everything's about to change  
And it scares me  
In the very best of ways  
'Cause I'm new at this, and you're new at this  
And we're headed down this road  
Growing up together  
And learning as we go

We'll be up at 10 and 2  
I'll be tired, and you'll be crying  
But if what my momma says is true  
I won't seem to mind it  
So, here's to messes in the kitchen  
Here's to laundry on the floor  
I know that I just met you  
But I couldn't love you more

Something tells me  
Everything's about to change  
And it scares me  
In the very best of ways  
'Cause I'm new at this, and you're new at this  
And we're headed down this road  
Growing up together  
And learning as we go

Ooh-ooh  
Oh-oh

You'll have your hands at 10 and 2  
I'll be crying in the driveway  
I know that day is coming soon  
But if I had it my way  
I would start the whole thing over  
To the day I brought you home  
And we'd keep growing up together  
And learning as we go  
Guess we're growing up together  
And learning as we go

Mmm-mmm
