

## Lifeline

CAIN

I feel lost at sea  
Past the point of rescue out here in the deep  
Afraid that I might drown  
I've never needed anything like I need You now

'Cause I can't stop the rain  
I can barely keep my head from going under  
But when I say Your name  
You reach down and pull me out of the water  
All my life  
You've been my lifeline  
My lifeline

I tried to save myself  
Nobody thinks they're helpless till they're crying out for help  
It's finally sinking in  
At the end of my rope is where the rescuing begins

Oh, 'cause I can't stop the rain  
I can barely keep my head from going under  
But when I say Your name  
You reach down and pull me out of the water  
All my life  
You've been my lifeline  
My lifeline  
Ooh, ooh, ooh  
Mmm  
Oh, oh, oh

I can't stop the rain  
I can barely keep my head from going under  
Jesus, when I say Your name  
You reach down and pull me out of the water  
All my life  
You've been my lifeline  
My lifeline  
My lifeline

My anchor in the storm  
I know I'm gonna make it  
My heart is tied to Yours  
My lifeline
