

Windows Down

CAIN

I was driving with the windows down
Music loud, lost as anyone could be
Praying that an open road
Would heal my soul and fill the emptiness in me

I wasn't in a church
I wasn't on my knees in prayer
But I know I heard Your voice
Right then, right there

I met You on a highway
Tears were in my eyes
The dashboard was the altar
Where I gave You my life
Oh, the headlights were shining
There were angels all around
Oh, it still feels like holy ground
When I go driving with the windows down

Now every single mile I drive
Testifies how You turned my life around
'Cause I remember when I called Your name
Everything changed
I was lost but now I'm found

I met You on a highway
Tears were in my eyes
The dashboard was the altar
Where I gave You my life
Oh, the headlights were shining
There were angels all around
Oh, it still feels like holy ground
When I go driving with the windows down

Every time
I turn the key
Sweet salvation
Is falling down on me

Driving with the windows down

Oh, I met you on a highway
Tears were in my eyes
And the dashboard was the altar
Where I gave you my life
Oh, the headlights were shining
There were angels all around
Oh, it still feels like holy ground
Yes, it does
Oh, it still feels like holy ground
When I go driving with the windows down
I still go driving with the windows down
