

# Long Time Coming

Caitlyn Smith

Sometimes it feels like I'm dying  
Like it's gone black and white and I'm caught in a dream  
But I see the birds in the sky, they're high flying  
But I'm stuck in this room with just you and me  
But the weather's changing right before my eyes

It's been a long time coming  
Through the dark, dark night  
It's been a long time coming  
But I'm going to be all right

We've danced with the devil under the streetlight  
Been to hell and back in a black room  
Now I want to change but don't know what it feels like  
Keep having these visions of me without you

It's been a long time coming  
Through the dark, dark night  
It's been a long time coming  
But I'm going to be all right

Have mercy please  
I'm begging, I'm pleading, I'm broken down on my knees  
Have mercy please  
I keep praying out loud, God help me find my way out

It's been a long time coming  
Through the dark, dark night  
It's been a long time coming  
But I'm going to be all right
