

## Snow Day

Caitlyn Smith

It's my favorite time of year  
Joy and magic all around me  
The bells are ringing loud and clear  
Watching flurries gently falling

We try and hold 'em in our hands  
Somehow they land on our eyelashes  
We find a mistletoe and then  
My kiss is fogging up your glasses

Cheers to the season  
Honey, you are the reason  
I believe in dreams come true  
You wanna know something  
No, there ain't nothing  
That I would rather do  
Than catching snowflakes on a snow day with you

There's something about December skies  
That make your eyes a little more blue  
You touch me and I melt like ice  
Don't know how my world turned before you

Cheers to the season  
Honey, you are the reason  
I believe in dreams come true  
You wanna know something  
No, there ain't nothing  
That I would rather do  
Than catching snowflakes on a snow day with you

It's my favorite time of year  
Joy and magic all around me  
Put your arms around me, dear  
And watch the flurries gently falling

Cheers to the season  
Honey, you are the reason  
I believe in dreams come true  
You wanna know something  
No, there ain't nothing  
That I would rather do  
Than catching snowflakes on a snow day with you  
Catching snowflakes on a snow day with you
