

Everything Everywhere All At Once

Caity Baser

I feel sick
In quite a few ways
Hurry quick
I'm actin' all strange
What is this?
'Cause I'm not in pain and I don't have a temperature
So I guess it's you

I wanna smile, I wanna cry, I wanna laugh
I wanna kiss, wanna fight and then make up in bath
And you could just stand there, and I'd be like, I, I, I

I'm feelin' everything everywhere all at once
I feel stupid and clueless like, "What the fuck?"
You look nice sat in my head
And I sleep with your clothes when you're not in my bed
Do anything anywhere that you like
If you want me whenever, I'll be there in five
Did I just step in some love?
Feelin' everything everywhere all at once
All at once
All at once

You're a dick
Yeah, you put me through hell, I'm addic-
-ted to the way that you smell
'Cause it stays in my hair
It's like you're always there
It's so unfair, yeah

I wanna jump, I wanna scream, I wanna shout
I wanna tell you that I love you, then smash up your house
All you do is stand there, and I'm like God, I, I

I'm feelin' everything everywhere all at once
I feel stupid and clueless like, "What the fuck?"
You look nice sat in my head
And I sleep with your clothes when you're not in my bed
Do anything anywhere that you like
If you want me whenever, I'll be there in five
Did I just step in some love?
Feelin' everything everywhere all at once
All at once (Ah-ah)
All at once (Ah-ah)
All at once (Ah-ah)

Once, ah (All at once)
All these emotions (All at once)
Hopeless devotion (All at once)
Swim across the ocean
What have you done? (All at once)
'Cause I think I'm broken

I'm feelin' everything everywhere all at once
I feel stupid and clueless like, "What the fuck?"
You look nice sat in my head
And I sleep with your clothes when you're not in my bed

Do anything anywhere that you like
If you want me whenever, I'll be there in five
Did I just step in some love?
Feelin' everything everywhere all at once
All at once (Ah-ah)
All at once (Ah-ah)
All at once (Ah-ah)
Once, ah
All at once
