M.I.A.

Caity Baser

I just can't stand it
The way they chat shit all the time
Only 'cause they're online
I can't stand it (nope)
When did I last see the outside
And not care 'bout replies?

I'm just tryna get in my zone now
Stop blowing up my phone now
You're really fucking up my flow now
Mmm, you're really fucking up my flow

No more snapping and chatting and Google and mapping
And WhatsApp ain't happening, you all think I'm slacking
But really, I'm thriving, feel like I'm alive
And I finally let go and forget and dive in

M.I.A., put my phone in aeroplane mode
Say what you say, 'cause I'm not gonna know now
Put my phone away for at least two days now, oh oh yeah
M.I.A., gotta say "see you later"
Don't message me, 'cause I'm gon' be off the radar
Going away great just to come back greater, oh oh yeah

M.I.A., put my phone in aeroplane mode all day
I can't hear what you say
Got my phone in aeroplane mode all day

I can't believe it
That you'd say something like this
Just to make me feel shit
Glad I've seen it (why would you do it?)
And 'cause with a flip of a switch
She don't even exist

I'm just try'na stay in my zone now (in my zone now)
Bet you hate not being involved now
Feeling good on my own now
Yeah, I'm pretty sweet

No more snapping and chatting and Google and mapping
And WhatsApp ain't happening, you all think I'm slacking
But really, I'm thriving, feel like I'm alive
And I finally let go and forget and dive in

M.I.A., put my phone in aeroplane mode
Say what you say, 'cause I'm not gonna know now
Put my phone away for at least two days now, oh oh yeah
M.I.A., gotta say "see you later"
Don't message me, 'cause I'm gon' be off the radar
Going away great just to come back greater, oh oh yeah

M.I.A., put my phone in aeroplane mode all day
I can't hear what you say
Got my phone in aeroplane mode all day

No more screen time

A little more 'me time'
No more screen time
Yeah, later haters

M.I.A., put my phone in aeroplane mode
Say what you say, 'cause I'm not gonna know now
Put my phone away for at least two days now, oh oh yeah
M.I.A., gotta say "see you later"
Don't message me, 'cause I'm gon' be off the radar
Going away great just to come back greater, oh oh yeah

M.I.A., put my phone in aeroplane mode all day
I can't hear what you say
Got my phone in aeroplane mode all day
M.I.A., put my phone in aeroplane mode all day
I can't hear what you say
Got my phone in aeroplane mode all day, oh oh yeah
