

Oh Well

Caity Baser

Ah, oh well
Like

I can't buy a house
I lost all my friends
They don't wanna talk
I wish it all made sense
I spend all my money on stuff that's irrelevant
But I might as well have fun
Before the whole world ends ('Cause it's gonna)
Yeah

Oh, it's all shits and giggles, rhymes and riddles
Don't know how it goes
I'm stuck in the middle of a tiddle
It's out of my control

Everything's fucked, but it's okay
Sometimes you just have to say oh well (Oh well), oh well (Oh well)
It was all good, now it's all gone
We had it all, but then it went wrong, oh well (Oh well), oh well (Oh)
Oh well, oh well, oh well

You've got a problem and you're tryna fix it
Riding the motions, now you're feeling seasick
Throw it up, get it out 'cause you didn't need it
Call and say you're sorry 'cause you clearly didn't mean it
Honestly, it's oh well
Got no self-esteem, I can tell
I know nothing ever goes well
For you or me
It's clear to see

It's all shits and giggles, rhymes and riddles
Don't know how it goes
You're stuck in the middle of a tiddle
It's out of your control

Everything's fucked, but it's okay
Sometimes you just have to say oh well, oh well (Oh well)
It was all good, now it's all gone
We had it all, but then it went wrong, oh well, oh well
Oh well, oh well, oh well

Nothing is good (Oh well)
Don't care when you should (Oh well)
Can't go back if you could (Oh well)
Waste all the time that you took (Oh well)
Nothing is good (Oh well)
Don't care when you should (Oh well)
Can't go back if you could (Oh well)
Waste all the time that you took
Oh well

Everything's fucked, but it's okay (Okay)
Sometimes you just have to say oh well (Oh well), oh well
It was all good, now it's all gone

We had it all, but then it went wrong, oh well, oh well
Oh well, oh well, oh well

Nothing is good (Oh well)
Don't care when you should (Oh well)
Can't go back if you could (Oh well)
Waste all the time that you took (Oh well)
Nothing is good (Oh well)
Don't care when you should (Oh well)
Can't go back if you could (Oh well)
Waste all the time that you took
Oh well
