

# Say It Like That

Caity Baser

I heard you're saying that you got me good  
You kissed and told your boys just like I knew you would  
I wanna punch your face in maybe I should  
But I know better

I heard you sayin' that you broke my heart  
But rumour has it that you knew that from the start  
I wanna break all of the windows of your car  
But I know better

Because honestly  
You're literally  
The worst person I've ever met  
AHA

Running your mouth  
Now everybody knows what we used to talk about  
Turning my friends against me  
Well you're speaking too loud  
Stay in your own crowd  
Why'd you have to say it like that  
You're making me look bad  
Why'd you have to say it like that

I gave you all these things you never deserved  
You're just pissed off because your ego is hurt  
And don't think you can do the same thing to her  
'Cause she knows better

They're all on your side and it's just because  
They don't know that you cried when I called it off  
But I won't say a thing yeah I'll just ignore  
'Cause I'm way better

Because honestly  
You're literally  
The worst person I've ever met  
(Aha)

Running your mouth  
Now everybody knows what we used to talk about  
Turning my friends against me  
Well you're speaking too loud  
Stay in your own crowd  
Why'd you have to say it like that  
You're making me look bad  
Why'd you have to say it like that

Say it like that  
Why'd you have to say it like that  
Why'd you have to say it like that  
Why'd you have to say it

Because honestly  
You're literally  
The worst person I've ever met

Running your mouth  
Now everybody knows what we used to talk about  
Turning my friends against me  
Well you're speaking too loud  
Stay in your own crowd  
Why'd you have to say it like that  
You're making me look bad  
Why'd you have to say it like that
