

STD

Caity Baser

You don't get to know me no more
Like everyone else does
Cause you've ruined everything
And you broke all of my trust
I'm starting again we cannot be friends
Wait till the weekend cause 100%
You'll have someone new in your bed
But I'll still be in your head
But me I'll just forget that we ever met yeah

I heard you got an STD
From sleeping with Molly, Libby, and Sophie
You had the nerve to cheat on me
Well karma's a bitch and I was out of your league
I heard you got an STD
From sleeping with Molly, Libby, and Sophie
You had the nerve to cheat on me
Well karma's a bitch and I was out of your league

To be honest I'm not even surprised
Should've seen through all your stupid little lies
When you're off to the club with your boys every night
Saying she's a friend, baby trust me alright
She's not the problem it was you
Act like you haven't got a girl
What do you think she's gonna do?
I wish you had a company
'Cause I'd complain with a shitty review
Saying "my man is broken I need a new one, maybe two"

I heard you got an STD
From sleeping with Molly, Libby, and Sophie
You had the nerve to cheat on me
Well karma's a bitch and I was out of your league
I heard you got an STD
From sleeping with Molly, Libby, and Sophie
You had the nerve to cheat on me
Well karma's a bitch and I was out of your league

You don't get to know me no more (no more)
Like everyone else does (else does)
Cause you've ruined everything (everything)
And you broke all of my trust (you broke all of it)
You don't get to know me no more
'Cause you're such a loser (boy, you're such a loser)
I am so glad that we broke up
I wish I did it sooner (you're wasting my time)

I heard you got an STD
From sleeping with Molly, Libby, and Sophie
You had the nerve to cheat on me
Well karma's a bitch and I was out of your league
I heard you got an STD
From sleeping with Molly, Libby, and Sophie
You had the nerve to cheat on me
Well karma's a bitch and I was out of your league

Oh, men are fucking trash
Goodbye
Fucking see ya
