

## The Plot

Caity Baser

I know it all gets a little bit hard sometimes  
I know two wrongs don't make a right  
But it's how life goes, it's a rollercoaster ride  
It will all be fine  
Do you know why?  
(One, two, three, hey)

Baby, you don't have to worry  
It's all for the story  
I say do it for the plot  
Because one day this will all be funny  
No more pity parties  
I say no regrets, just fuck it, do it for the plot

Are you stuck in a rut or you can't get it up  
Or are you cookin' in the kitchen and now everything is fucked?  
So you chuck it everywhere and say that you've had enough  
Would you just like, I don't know, chill out?  
Are you stuck in the middle of a sticky situation  
You're hatin' everyone or is it just menstruation?  
Your time of the month isn't the time of the year  
So chill the fuck out because everyone's here

Each mistake is just the next chapter  
On the road's a happy-ever-after  
Don't be stressed, 'cause it won't even matter  
In the mornin', in the mornin'  
Life's a movie and you're the main character  
Don't expect everyone to be a fan of you  
We're sisters and brothers  
And we are haters and lovers and that is all

Baby, you don't have to worry  
It's all for the story  
I say do it for the plot  
Because one day this will all be funny  
No more pity parties  
I say no regrets, just fuck it, do it for the plot

Ooh-ooh, ooh-ooh-ooh  
Ooh-ooh, ooh-ooh-ooh  
Ooh-ooh, ooh-ooh-ooh, ooh-ooh-ooh-ooh  
Ooh-ooh, ooh-ooh-ooh  
Ooh-ooh, ooh-ooh-ooh  
No regrets, just fuck it, do it for the plot
