

Boom

Cake Pop

I'm a demon, I'm a spy
I can catch the lightning
I'm a sequin in your eye
And I'm ready for fighting
Paper in my mouth
And it's making me snap
Later I'm a mouse
And I'm caught in a trap
Can you please hit me and mean it?
Listen to Britney and scream it
Give me a cig, boy, I'm fiending
I think I gave up on reading

Got the radio on, and the friends can't stop me
Radio on, and the friends can't stop me
Radio on, and the friends can't stop me

Turn it up make the speaker go
Boom boom boom
Boom boom boom
Boom boom
Make the speaker go
Boom boom boom
Boom boom boom
Boom boom
Make the speaker go

Watch me sway my body
Watch me call back always
Watch me be the girl
That you wish you knew back in college
Had a couple drinks
And now I've had a couple more
I can't even stand straight
I'll meet you at yours
Thought I heard you on the radio last night
It was the only song I liked, yeah
(I swear)

Got the radio on and my friends can't stop me
Radio on, the friends can't stop me
Radio on and my friends can't stop me

Turn it up make the speaker go
Boom boom boom
Boom boom boom
Boom boom
Make the speaker
Boom boom boom
Boom boom boom
Boom boom
Make the speaker go
Boom boom boom
Boom boom boom
Boom boom
Make the speaker go
Boom boom boom

Boom boom boom
Boom boom
Make the speaker go
