

## Love Has A Friend

Cal Smith

When love finds a heart to move into  
Oh why can't he move in alone  
Why must he keep that old friend hanging round  
Just waiting for something to go wrong

Love has a friend called lonely  
And where love lives close by you'll find him  
When there's a doubt and true love moves out  
Well that's when lonely moves in

I opened my heart's door to your love  
I thought I'd never be alone again  
But you took your love moved away from my heart  
And that's when the lonely walked in

Repeat #2

Yes that's when lonely moves in
