And I know y'all feel the change, cause I put a new world on the map

That's facts, holy might rip yo tracks

I beat the beat up so good no cap

Damn shawty don't know why it drip like that

And that's on my soul, come n see me in action

Thumbing the dividends, never seen fractions

Holy moly you gon wake up da masses

Know that they gon feel up passion

Hit that's gas like pls don't pass it

Sound like every bar a caption

She so sweet my chocolate rain, color coated candy paint

And I be having

I'm with the niggas that stand on that business

I been trappin try run up a million

I got a foreign it came with no ceiling

Lost my brodie, then lost all my feelings

I been a problem I'm too much to deal with

Step outer body my lil bro a kill shit

Me and my blicka don't fuck with you niggas

Might ride with my bitch cause she tell me some real shit

And I heard through the grapevine nigga's hoes

If I'm ever on a side, I'm a blow

Gotta watch for the snake eyes when I roll

Got to stick on-me waste side on the coat

I don't need a line pour a four

I don't need a line pour a four, niggas say they a ride, but they told

Play with me, left his mind on the floor
