Is it wild? Well, where you been?
I just say, "Fuck it, the paperwork"
I can feel necks, I can make it work
You had to watch how you play it first
I had to find me a way to run
I got some scars, that's my way to learn
Better say what you mean and you say it firm
We gon' catch all the oppas and make it burn
Boy, you mention my name, then you make it worse
Billi's under my partner, he busy servin'
Heard he caught a few shots 'cause he deserved it
They know we from the wild, my young niggas purgin'
When I stop fallin' back, I had found my purpose
Yeah, I come with some problems, can't say I'm perfect
They was holding me back, but I still was workin'
Many nights I was fucked up and they was worthless

Throw that dirt on my name, want niggas hurt?
Better stay out the way, we paint niggas shirt
We won't hesitate, put niggas in the dirt
Only roll up exotic, it's from the Earth
Niggas thinkin' it's chicken until they murk
Only tip to these niggas is stay alert
Only tip to these niggas is stay alert
My bro ready to kill and might find him worse
Don't fuck around, you a dead man
Bitch, I still break it down like I'm Bam Bam
No, no, I've been a bad man
Got that shit on my mind, I could have it
Shawty, we was outside, on that van, damn
Don't get caught on this side, you get fanned out
Don't be loafin', he get talking when his man down
'Bout a bitch, he gon' die with his pants down
