

# Smile

CalBoy

You know like everything smile  
Well I was told to crawl before you walk  
Aye, I was told to stand before you stalk  
Gotta keep it solid for my bro behind that wall

It's free lil' 4, can't get that time back with my dog  
He play with me we push up switch up kill them all  
He left his mark they taped the scene trace him in chalk  
They called a fan heard he ain't dead but he can't walk  
How you ain't heard before this lil' rap shit been a boss  
Straight out the mud I've been a thug oh free the side  
My oppositions get left on the other side  
Hoe thick as shit I do agree this ain't my time

You know like everything smile  
Well I was told to crawl before you walk  
Aye, I was told to stand before you stalk  
Gotta keep it solid for my bro behind that wall

Ever since a youngin' always knew that I was great  
Straight to the top I can't be makin' no mistakes  
I told that hoe don't want your love I know it's fake  
Lately been takin' all them drugs might fade away  
Demon, aye  
Heard your mans was on the way to heaven don't be late  
I miss god I witnessed him I swear you can't relate  
Show my dog he blessed for life he took a shot right to the face  
You know I've been right so every day it feels great

You know like everything smile  
Well I was told to crawl before you walk  
Aye, I was told to stand before you stalk  
Gotta keep it solid for my bro behind that wall
