I know things are gonna take some time (Take some time)
And I dream all through the night (All through the night)
I saw things, got traumatized (Got traumatized)
In these streets, tryin' to survive (Tryin' to survive)
Swing, swing, swing through these tangled vines (Through these tangled vines)
Swing, swing, swing through your block with nines (Through your block with nines)
You don't know about me, so you tellin' lies (You tellin' lies)
Swing, swing, swing through this jungle, it might take your life

Better hop on this road, I remember them days
I remember the code, ayy
All my niggas stay ten toes, ten toes, no, they never fold
Got that chopper and it blow, it blow, you thinkin' you bold
I been losin' my mind, I don't know what I'm on
We gon' carry them masks, yeah, we pull up and pop at his dome
We gon' carry them masks, yeah, we pull up and takin' his soul
Niggas envy behind, yeah, you know I did this on my own
And I went crazy, so I'm gettin' faded
These niggas be mad, that I'm gettin' famous
Niggas tweak if you bad, we leavin' 'em stankin'
Tell 'em, "Off with head", and they get to bangin'

I know things are gonna take some time (Take some time)
And I dream all through the night (All through the night)
I saw things, got traumatized (Got traumatized)
In these streets, tryin' to survive (Tryin' to survive)
Swing, swing, swing through these tangled vines (Through these tangled vines)
Swing, swing, swing through your block with nines (Through your block with nines)
You don't know about me, so you tellin' lies (You tellin' lies)
Swing, swing, swing through this jungle, it might take your life
