

Acting Our Age

Cale Dodds

(Woahooahhh)

We said tonight, we ain't going out
So we invited everybody
The drinks are made, they're way too strong
But ain't nobody saying sorry
The speaker's so blown no one knows what it is
But we keep it on repeat because we don't want it to end

We've got the rest of our lives for the rest of our lives
And the rest of tonight for whatever feels right
We're doing it our way
Just acting our age

One day we'll look back just shaking our heads
But right now we're too fast to slow down just yet
We're doing it our way
Just acting our age

(Woahooahhh)

Just acting our age

There's people here that I just met but we're acting like we go back
It's 3 a.m. we ain't done yet
Trying our best to make it last

Freedom running through us like an open vein
We're too high on being young and there's still hell to raise

We've got the rest of our lives for the rest of our lives
And the rest of tonight for whatever feels right
We're doing it our way
Just acting our age
One day we'll look back just shaking our heads
But right now we're too fast to slow down just yet
We're doing it our way
Just acting our age

(Woahooahhh)

Just acting our age

(Woahooahhh)

Just acting our age

(Woahooahhh)

We're too loud, we're too proud
We're too high to come back down
We don't think, we don't plan
We stay as long as we can
(Woahooahhh)
As long as we can

We've got the rest of our lives for the rest of our lives
And the rest of tonight for whatever feels right
We're doing it our way
Just acting our age
One day we'll look back just shaking our heads (just shaking our heads)
But right now we're too fast to slow down just yet (slow down just yet)
We're doing it our way

Just acting our age

(Woahooahhh)

Just acting our age

(Woahooahhh)

Just acting our age

(Woahooahhh)

(Woahooahhh)
