

All Over

Cale Dodds

Same place, we go every weekend
Walked in, poured every drink and
Saw her, wish I didn't see him, damn wish I didn't see him
Funny how fast these things happen
Jokes on me, but nobody's laughing
It's not that I hate her, nah. I just hate that we're strangers

She's all over, all over me
Looks like she finally found what she needs
Watching her dancing over there all over him
The one thing easy to see is she's all over, all over me

I don't wanna make it weird for her, so I'm gonna stay clear of
her
'Cause I might say something I regret
Like I miss you, I wish you had never left

She's all over, all over me
Looks like she finally found what she needs
Watching her dancing over there all over him
The one thing easy to see is she's all over, all over me

I don't wanna fight the guy she's with, cause she looks happy w
ith whoever he is
And watching him hold her, wish I could do it all over

But she's She's all over, all over me
She's all over, all over me
She's all over, all over me
Looks like she finally found what she needs
Watching her dancing over there all over him
The one thing easy to see is she's all over, all over me
All over me
