

Give It Back

Cale Dodds

I've got a fire burning deep in my chest
You lit it up on the day that we met
And I can't put it out
You left a taste right there on my lips
I'm still high from the very first kiss
And I ain't coming down

Take my heart don't give it back, don't give it back, no
Take my heart don't give it back, don't give it back
It's yours to love, yours to break
Girl, I'm all in either way
So go on take my heart don't give it back, don't give it back, no

I don't wanna leave a single trace of doubt
I hope you're in but it don't matter if you're out
'Cause I can't stop it now

There ain't no way to know, girl, if we'll end up hurt
But I ain't easing into this, I'm diving in head first

(So) Take my heart don't give it back, don't give it back, no
Take my heart don't give it back, don't give it back
It's yours to love, yours to break
Girl, I'm all in either way
So go on take my heart don't give it back, don't give it back, no

It's right here, it's beating
So love it or leave it
It's right here, it's beating
So love it or leave it

Don't wanna worry about the could have been should have been
Don't wanna dance around it, gonna tell it like it is
I know it's feeling like it's stealing but I'm digging in
And I'm giving in. So go on

Take my heart don't give it back, don't give it back, no
Take my heart don't give it back, don't give it back

(Go on) Take my heart don't give it back, don't give it back, no
Take my heart don't give it back, don't give it back
It's yours to love, yours to break
Girl, I'm all in either way
So go on take my heart don't give it back, don't give it back, no

Don't give it back, don't give it back
Don't give it back, don't give it back
