

Like We Do

Cale Dodds

Matchbox on the stereo
Yelling at the people that we know
A couple stoners in the back seat
A little higher than they should be
Pit stop at the quick stop
A brown bottle with a twist top
The name brand I forgot it
Yeah it was cheap so we bought it

Don't it feel good feeling like we do
(Feeling feeling alright)
We're gonna grow up but no time soon
(Gonna gonna all night)
The time of our lives, doing it right
Playing it the way that we want to
Don't it feel good feeling like we do
Living this life just like we do

A pretty girl with a pretty face
A flannel shirt tied around her waist
Turn it up and get down
Something 'bout those hometown girls

Kicked back in the back yard
Or downtown with a cover charge
Midnight, we're wide awake
Like every day is a holiday

Don't it feel good feeling like we do
(Feeling feeling alright)
We're gonna grow up but no time soon
(Gonna gonna all night)
The time of our lives, doing it right
Playing it the way that we want to
Don't it feel good feeling like we do
Living this life just like we do

Don't nobody do it like we do
Stay a little longer than we need to
Ain't no take-backs and no re-do's
When you're living it up like- living it up like we do

Don't it feel good feeling like we do
We're gonna grow up but no time soon

Here's to a few friends, nights that don't end
Weekdays talking 'bout next weekend

Don't it feel good feeling like we do
(Feeling feeling alright)
We're gonna grow up but no time soon
(Gonna gonna all night)
The time of our lives, doing it right
Playing it the way that we want to
Don't it feel good feeling like we do
Living this life just like we do

Don't nobody do it like we do
Stay a little longer than we need to (alright)
Ain't no take-backs and no re-do's
When you're living it up like- living it up like- (all night)

Don't nobody do it like we do
Stay a little longer than we need to (alright)
Ain't no take-backs and no re-do's
When you're living it up like- living it up like-
