

# People Watching

Cale Dodds

The way they all look  
Like we're somebody  
You'd think we pulled up  
In a brand new Maserati  
Like the night's been waiting on us  
Girl, that spotlight's staying on us  
It's just me and you doing what we do  
And they can't get enough

People watching us dance  
People watching us move  
Everybody all across the room  
Is watching you and me showing out tonight  
Every guy in here's jealous  
You're making me look good and you can't help it  
They can stop and stare but we ain't stopping  
I love it how we've got people watching

(People watching)

Maybe it's in my head  
But I swear there's cameras flashing  
Maybe it's that dress  
That's making us the main attraction

The way you're looking like that  
I don't blame 'em for looking like that

It ain't hard to see it  
That baby you're the reason

People watching us dance  
People watching us move  
Everybody all across the room  
Is watching you and me showing out tonight  
Every guy in here's jealous  
You're making me look good and you can't help it  
They can stop and stare but we ain't stopping  
I love it how we've got people watching

I love it how we've got people watching

We're just two people lost in love  
We're just two people watching people watching us

Watching us dance  
People watching us move  
Everybody all across the room  
Is watching you and me showing out tonight  
Every guy in here's jealous  
You're making me look good and you can't help it  
They can stop and stare but we ain't stopping  
I love it how we've got people watching

I love it how we've got people watching  
I love it how we've got people watching  
Yeah girl we've got people watching
